Artisanal lighting design

CONTAIN x *Font*
BARCELONA

This collection arises from the desire to collaborate among people who share a love for local craftsmanship and a passion for well-executed design.

As a result, CONTAIN x Font Barcelona Collection introduces unique options for perfect lighting in combination with our mechanisms under a uniform aesthetic, not only fulfilling a necessary function but also being part of an innovation that creates the ideal atmosphere in every room of a project.

Each piece has been carefully designed to achieve a flawless final finish, made with manual processes based on brass as a natural material, and treatments carried out in an artisanal manner that ensure aesthetic innovation.

In this way, it is possible to offer pieces tailored to each project, providing endless customization possibilities that enhance the uniqueness of each space.

> " This collection is the result of a collaboration between a young company and a third-generation family business, sharing a clear vision: to create products using high-quality materials that endure over the years, merging craftsmanship with design. "

CONTAIN
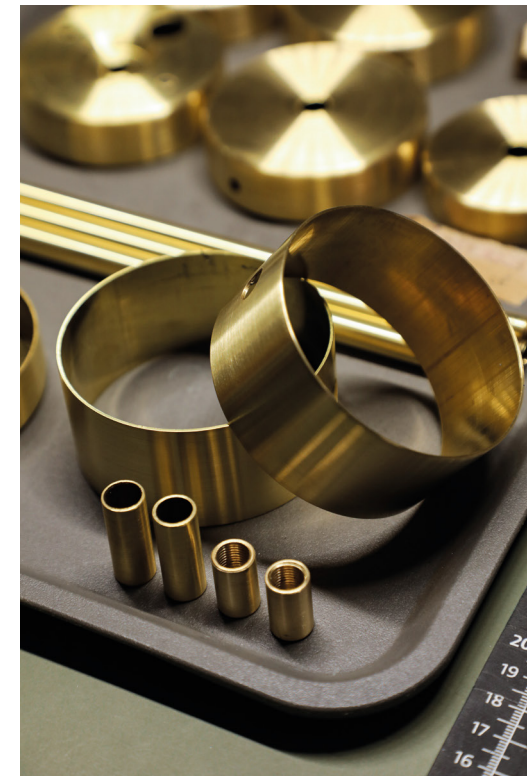

" We are united by the passion we put into each of our products. This passion for design, for the quality of materials, and the desire to convey it all through the product itself is undoubtedly the driving force behind this natural and spontaneous collaboration. "
